Subject :- To develop a talent pool in our energy sector especially in Shale Gas Technologies.

Sir,

MEA has advised that the existing platforms for co-operation and partnership with US dealing with Science and Technology, higher education and innovation and entrepreneurship may be used for availing opportunities for training and research with the US Universities and Industries to develop a talent pool in country's energy sector especially in Shale Gas Technologies. It has further been suggested that to learn from the US Oil and Gas Industry and the Institutions, especially the top Institutions in shale gas namely University of Oklahoma, Stemford and Texas A&M

may be approached for providing training to the technical experts of energy sector of our country.

2. It is, requested to explore the possibilities and modalities to provide training and upgrade scale & skill of the experts working in shale oil and gas in your organization to the US Oil and Gas Industries and Institutions.
